THE EVEREST SKYDIVE TEAM

Our jump crew are all experienced in high-altitude skydiving and have been formally certified in the use of their specific jump equipment by the manufacturer. Most have been jumping in the Himalayas since 2008.

Countries have different regulations regarding who is permitted to jump with a passenger or student. Everest Skydive tandem masters are qualified under British, American and Australian regulations, which means they've all completed a minimum of 500 solo jumps.

SUMAN PANDEY – Team Leader

Operating a skydiving event in the extreme and difficult mountain environment of Nepal's Everest Region is not easy. Suman secures the necessary jump permits and oversees logistics. He is the President of Explore Himalaya.
